

MicroCode Architecture Specification v2.4
Universal Multi-Purpose Preview Dock & Native Toolchain

1. Overview

The right-hand Preview Dock provides instant side-by-side inspection for developers.
Supported formats include:

- Web Server (Localhost & Remote tunnel)
- iOS Simulator & Android Emulator
- Images (PNG, JPG, SVG, WebP with Pan, Zoom & Region Comments)
- PDF Documents (Continuous scrolling & multi-page navigation)
- Spreadsheets (CSV, TSV, XLSX, XLS, Numbers with Table Grid & QuickLook)

2. Region-Based AI Code Reviews

Developers can click and drag bounding boxes across any UI mockup or screenshot.
Coordinates and contextual comments are forwarded to the AI Agent chat session
for rapid iteration, CSS alignment, and component generation.
